RE: Docket No. RM2017-3

Dear Commissioners:

We join the National Catholic Development Conference (NCDC), the Alliance of Nonprofit Mailers, and the nonprofit mailing community in urging you to reconsider your proposal to increase postage rates several times the rate of inflation. Increases that are estimated to reach 7 percent a year, or 40 percent compounded for five years, will not reform the United States Postal Service and will have a major negative impact on both the agency and its customers.

As a nonprofit, we rely on mail for the majority of our fundraising. But we operate on a limited, fixed fundraising budget each year, so if postage goes up as much as you contemplate, we will be forced to greatly reduce our mailings. This will have a disastrous impact on our revenue and our mission.

Postage increases totaling 40 percent over the next five years will have the following impact on our mission and the people we serve. Our mission of education and Christian Formation takes us into some very poor areas. We get donations to support our mission through our annual appeal. If the postage rate is raised, we will have less to support the poor people who are already suffering from so many other cuts.

Please do the right thing and reconsider your proposal.

Sincerely,

A handwritten signature in blue ink that reads "Sister Amelia Stenger".
